

BLACK INFINITE WORLDS MEDIA
CLASSIFIED ARCHIVE FILE

SUBJECT CODE:
CHRONOMETER

STATUS:
Identity Classified

GENEP54 TYPE:
Potential Energy Mutation

KNOWN ABILITIES:

- Stores latent biological energy
- Converts stored energy into explosive acceleration
- Increased reaction speed after prolonged inactivity
- Potential force amplification
- Energy retention beyond normal human limits

OBSERVED BEHAVIOR:

Subject exhibits unusually calm physical posture prior to activation events.

Unlike Booster-class mutations, movement does not immediately increase power output. Subject effectiveness appears linked to delayed release cycles and controlled restraint.

COMPARATIVE ANALYSIS:

Booster mutation:

- Kinetic amplification
- Momentum based
- Immediate acceleration scaling

Chronometer mutation:

- Potential energy storage
- Delayed acceleration scaling
- Energy compression and release

THREAT LEVEL:

Under Evaluation

ADDITIONAL NOTES:

Civilian identity remains sealed within Vanguardians intelligence archives.
